Inventory of SIAST Approved Programs at July 1, 2003

Overview

1. Explanatory Notes

The *Inventory of SIAST Approved Programs at July 1, 2003*, includes all approved programs and the credential awarded upon completion. The following is an explanation of how the programs are set up:

a) Programs with multi-site offerings are considered one program. For example, Welding in the Industrial Division (page 8) is offered at Kelsey, Palliser, Wascana, and Woodland Campuses. Each location offers the same credential (certificate), so these are considered the same program and counted as one.

b) Ten programs have dual credentials and they are considered separate programs. The following programs have a combination of the certificate, advanced certificate, and diploma credentials and each credential is considered a separate program – therefore 21 programs:

• Chemical Dependency Worker	Certificate/diploma
• Early Childhood Education	" "
• Health Information Services	" "
• Media Arts Production	" "
• Power Engineering	" "
• Process Operator	" "
• Rehabilitation Worker	" "
• Water Resources Engineering	" "
• Youth Care Worker	" "
• Human Resource	Certificate/advanced certificate/diploma

c) The program inventory is listed by division. A sub-total of the programs is provided at the end of each division. This year, it was decided to include the funding source. Reference to programs being offered on- and/or off-campus has been removed.

2. SIAST Approved Programs

Overall, SIAST offers **163 programs**, 27 apprenticeship programs and the first two years of the NEPS degree program. The credentials for these programs are:

Applied certificate	41
Certificate	58
Advanced certificate	13
Diploma	51
Credit programs	**163**
Apprenticeship programs	27
NEPS (year 1 and 2)	1
Total SIAST programs	**191**

Apprenticeship Training Programs Offered at SIAST 2002-03: Total = 27

These programs are not totaled with the SIAST approved program listing in the previous pages.

Apprenticeship training programs are those where employees are indentured as apprentices to work in industry and learn a trade to gain journeyperson status, while at the same time completing determined periods of training at SIAST.

As well as SIAST, additional apprenticeship training is conducted by other education facilities in the province.
